III. Fire Safety Tips and Announcements

Fire Safety Tip: Christmas Tree Safety Tips

The HFD highly recommends using an artificial tree, which is a safer alternative. Artificial trees are flame-retardant and reusable. If you decide to select a fresh tree, adhere to the following safety measures:

- Ensure needles are green and do not fall off when touched.
- Add water to the tree stand daily.
- Use lights that are in good repair, and never use open flames to light your tree.
- Always turn off Christmas tree lights before leaving your home or going to bed.
- Consider disposing of the tree in your green waste bin or taking it to your nearest refuse center immediately after Christmas or when it is dry.
