III. Fire Safety Tips and Announcements

Fire Safety Tip: Cooking Safety Tips

Food brings family and friends together, especially during the holidays, and cooking can be relaxing. But did you know that cooking fires are the number one cause of home fires and home injuries? By following a few safety tips, you can prevent these

fires.

- Cook with caution. Be on alert. If you are sleepy or have consumed alcohol, do not use the stove or stovetop.
- Stay in the kitchen when you are cooking. Never leave the stove and heated appliances unattended.
- Set a timer as a reminder to check on the food being cooked.
- Keep anything that can catch fire, including oven mitts, wooden utensils, food packaging, and towels, away from your stovetop.
- Keep children and pets at least three feet away from cooking areas.
