

Board of Water Supply

Kalawahine 24-Inch Water Main Project

PROJECTED TO BEGIN OCTOBER 10, 2022, TO THIRD QUARTER OF 2024

The Board of Water Supply will install approximately 4,900 linear feet of new 24-inch water main along the following areas:

- Pensacola Street from Kinau Street to Nehoa Street
- Auwaiolimu Street from Nehoa Street to Anianiku Street
- Anianiku Street from Auwaiolimu Street to Fire Hydrant M02678

Road Work Hours:

- 8:30 a.m. to 3:30 p.m.
Monday to Friday

The construction of this 24-inch water main is a necessary component of the overall system that will be connected to a new reservoir in Makiki which will provide the area with an additional two million gallons of water storage. This will improve water system performance and reliability. It will also assist in meeting domestic fire protection needs.

If any questions or concerns, contact the BWS Communications Office at (808) 748-5041 or emailing contactus@hbws.org.

The BWS appreciates the community's patience and understanding as we work on this important project which will improve water service reliability to customers in the area.
